

A Tax-Advantaged Way to Save for College

Most investors have some sort of college savings plan—Coverdell Savings Accounts, savings bonds, personal savings, etc.—but are these vehicles the most tax-efficient solution? The IAdvisor 529 Plan is a way to invest for almost all college spending needs and receive tax benefits—even at high contribution levels.

IAdvisor 529 Plan Offers Tax Incentives for College Savings

- **Earnings Grow Tax Free**—The IAdvisor 529 Plan offers federal and state tax-exempt growth; this feature has the potential to accumulate more than a taxable investment.
- **State Tax Deduction**—For Iowa taxpayers, annual contributions of up to \$5,800 per beneficiary per taxpayer may be deductible from Iowa taxable income in 2025 (adjusted annually for inflation).¹
- **Withdrawals are Tax Exempt**—Withdrawals for qualified educational expenses at eligible educational institutions are also free from federal and Iowa state income taxes for Iowa taxpayers.²
- **Estate and Gift Tax Benefits**—any donor can either contribute to \$19,000 (\$38,000 for couples) per year per beneficiary, or make a lump sum gift of \$95,000 (\$190,000 for couples) per beneficiary every five years³—all without gift tax consequences.

IAdvisor 529 Plan Gives You Flexibility and Control

- **High Contribution Limits**—up to \$505,000 per beneficiary, with no income or state residency requirements.
- **A Wide Range of Investment Options**—from age-based⁴ to risk-based to individual funds, you and your financial professional can customize the investments to your needs.
- **Control Over Assets**—the account owner maintains control over the assets until they are utilized for qualified educational expenses.

¹ If withdrawals are not qualified, the deductions must be added back to Iowa taxable income.

² Non-qualified withdrawals may be subject to federal and state taxes and an additional federal 10% tax. Qualified expenses include tuition, room and board, books, computers and supplies at most two- and four-year colleges, technical, vocational and graduate schools as well as tuition for primary or secondary public, private and religious schools.

³ In the event the contributor does not survive the five year period, a prorated amount will revert back to the contributor's taxable estate.

⁴ The Age-Based Options are designed for college savings and may not be appropriate for K-12 investment horizons.

⁵ Because of the lower tax rates on capital gains and dividends, the return of the taxable investment would be more favorable, thereby reducing the difference in performance.

⁶ Investors may realize capital gains or capital losses in any year that they sell fund shares within a taxable account, although this example does not take into account capital loss carryforwards or other tax strategies used to reduce taxes that could be incurred in a taxable account. Lower capital gains, dividend tax rates, or tax rates in general would make the return for the taxable account more favorable.

⁷ Changes in tax rates and tax treatment of investment earnings may impact the comparative results. You should consider your personal investment horizon and income tax bracket, both current and anticipated when making an investment decision as these may further impact the results of the comparison.
